

8000/8100/8200

M O D E L S

CLASSIC STEEL

Up to R-7.4* Polystyrene Insulation
Tongue-And-Groove Panels
10-Year Warranty

Colonial Panel, Taupe finish, Prairie I windows.

door construction

- Embossed, high tensile steel panels give the look of wood with the strength of steel.
- Two-coat, baked-on polyester finish is virtually maintenance-free. This finish also makes an excellent base if you repaint to match the existing exterior colors of your home.
- Full 2"-thick door panels have box-shaped 20-gauge stiles for strength and rigidity.
- Contains expanded polystyrene insulation (Model 8000 is non-insulated).
- Wind load models available. 
- Heavy-gauge steel wraparound end caps trim-out door edges for better appearance, improved strength and protection of the insulation from damage.
- Sound-absorbing insulation in Models 8100 and 8200 makes the door operate quieter and reduces wind-rattling.
- SilentGlide™ nylon rollers with solid steel shafts provide years of smooth, quiet and dependable operation.
- An insulated garage door improves your home's thermal efficiency.

specifications

Panel Designs

Steel panels embossed with textured surface deliver high impact-resistance with minimal maintenance.

Safety and Security

The Wayne Dalton TorqueMaster® Plus is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that eliminates the risk of door free fall and prevents potential serious injury.

Warranty

Models 8200, 8100 and 8000 offer a 10-Year Limited Warranty against cracking, splitting, rusting through or section deterioration. See dealer for complete warranty details.

Energy Efficiency and Noise Control

- Model 8200 has expanded polystyrene insulation with an R-value* of 7.4.
- Model 8100 has expanded polystyrene insulation with an R-value* of 3.7.
- Model 8000 is non insulated.
- Tongue-and-groove panel joints fit together snugly to help seal out wind and weather.
- Bulb-shaped bottom seal remains flexible even in the cold to keep out bad weather.

Model 8000

* Wayne Dalton uses a calculated door section R-value for our insulated doors.
